Nimbus Marine User Manual. Page 1: Overview. The Marine model adds a salt-spray detector to the Pro sensors and is rated IP67. Use the stainless-steel clamps.

Nimbus Marine User Manual. Page 2: Corrosion care. Rinse the station with fresh water once a month, and after every storm at sea. Do not use solvents on the radiation shield.

Nimbus Marine User Manual. Page 3: Troubleshooting. Error M04 means the salt-spray detector is saturated: rinse it with fresh water and wait 2 hours. Error M09 means the mast vibration is too strong for accurate wind data.
